Education

University of Akron Akron, OH
Bachelor's Degree in Computer Science and Technology 2025-02-01 - Present

Experience

Senior Software Engineer 2018-07-01 - Present
Google *Mountain View, CA*

- Designed and implemented scalable distributed systems processing petabytes of data daily.
- Lead technical strategy and mentored junior engineers to drive engineering excellence.
- Optimized low-latency search algorithms to improve query response times by 15%.

Software Engineer 2015-03-01 - 2017-05-01
Patreon *San Fransisco, CA*

- Built and maintained creator-facing payment infrastructure using Python and React
- Collaborated with product designers to ship new membership tier features
- Refactored legacy codebases to improve maintainability and deployment velocity

Crew Member 1997-08-01 - 2000-06-01
Dunkin *Akron, OH*

- Prepared coffee and food for customers
- Performed customer service at the drive-thru and cash register
- Mopped the floors

Basketball Player 2019-02-01 - Present
LA Lakers *Los Angeles, CA*

- Worked as the leading player for the LA Lakers
- Scored points
- Got rebounds
- Made assists
- Lead the team and rallied to playoff victories using the power of teamwork and friendship

Projects

Computer Vision Basketball Analysis | *Python, SQL, Pytorch* 2025-01-01 - 2025-02-01

- Developed a real-time player tracking pipeline using PyTorch and OpenCV to calculate shooting efficiency metrics from raw game footage
- Built an interactive coaching dashboard with React and D3.js to visualize defensive breakdown patterns and shot charts
- Implemented a Python-based microservice to process spatial player data and predict offensive plays using LSTM networks

Skills

Team Leadership, Coaching, Customer Service, Cleaning, Java, Sauteing, SQL, Cooking, Frying, Basketball
